INTERESTS

I'm absolutely passionate about photography, design and traveling. I love nature, outdoor activities, snowboard, swimming, running. I've been attending an Argentine tango class for two years and I'm determined to continue 'cause it's amazing. I love music in all its forms, italian music, blues, folk, opera, rock... I'm a homebrewer and I'll surely delve into this fascinating subject.

I'm an independent person with teamwork ability, and I'm happy to improve myself learning new skills and tools. I want to try an international experience to improve my english and to enrich my vision of living and working.
